Having been there himself, perhaps, he ndmonished them before starting on a sight-seeing tour to be very guarded in what they did and to turn in at a seasonable hour, all of which went in one ear and out the other. The hoys were out for a good time and they had it.

"In the session that has just closed the Congress has done more substantial work for good than any Congress has done at any session since I became familiar with public affairs," said President Roosevelt.

MISREPRESENTATION is a fad with peanut politicians, but it will not stand with sensible people conversant with facts. In another place Congressman Bennerr lays bare the falsity of a resolution adopted by the late Democratic Congressional Convention in this city, and the attention of every voter is directed to his manly statement.

The Republican party is protecting what it has secured for the people, and it is today championing prosperity as it defended the

Union when the party was first organized. There is nothing humiliating about Sustain such a campaign. It is Prosperity. the most honorable warfare known. General

prosperity is the condition of the United States today, and it is undisputed by our opponents. The Republican party has been in complete control of the executive and legislative departments of the Government for nine years, and has written its policies into law and executed them. For nine years we have been growing more prosperous every day, every week and every year. Republican Administration and Prosperity have been contemporaneous and made.

they may prove to be coextensive. They came together, they have dwelt together and they may depart together.

That is the one great reason why Republicans are this year, as two years ago and six years ago, making a campaign to sustain pros perity. The business of the country, manufactures and agriculture, have doubled in these uine years of Republican Administration. Production and consumption also have doubled since the election of President McKinley, and the total amount of money paid in wages last year was twice the amount paid in wages in the year 1895. These are facts, not assumptions, and are capable of demonstration from the latest census figures. These conditions are worth continuing, and the Republican party is standing guard to protect them. Theodore ROOSEVELT is in command, and his Administration should be supported by a Republican Congress. Roosevelt's Administration would be handicapped with a Democratic House and a Republican Senate. The election of a Democratic House this fall would compel the President and the Senate to simply mark time for the next two years. There is too much at stake to take chances.

The American people had an opportunity in 1890, and by the election of a Democratic House sought to discredit the McKinley Tariff Law. Two years later they gave the Administration over to the Democratic party-legislative and executive. The result was the Wilson-Gorman Tariff Law, and the nightmare of industrial and commercial disaster, which continued until the return to Republican policies. There is no pleasure in dwelling upon those conditions under the last Democratic Administration, but there is profit in remembering how they were brought about. It is not wise to take such chances with the prosperity of the country and the welfare of all the people. The Republican party stands by the record it has

dicted by the Grand Jury on a charge of having converted to his own use \$4,700 in his hands so Commissioner and belonging to the Blakeley

STOPS ANY ITCHING.

Doan's Ointment Cures Eczema and Itching Piles. Maysville People Recommend It.

One application of Doan's Ointment stops any itching. Short treatment cures eczema, Itching piles, salt rheum-any skin eruptlon or skin itching. It is the cheapest remedy to use, because so little of it is required to hring relief and a cure. Here is Maysville testimony to

Mrs. Kate Poth, living at the corner of Clark street and Forest avenue, Maysville, Ky., says: "I gave a statement about Doan's Ointment which was published in our Maysville papers. I said that I had received most decided benefit from the use of this remedy, procured at J. Jas. Wood & Son's Drugstore. For a long time I had an Itching or eczema of the scalp. It broke out in spots, and sometimes the spots would appear on my forehead and temples. The Itching was particularly troublesome just before a rain, and was then so intense that I could not sleep at night. It required only a short use of Doan's Ointment to cure the trouble, and the cure has been lasting for the past five years. There has never been even an indication of a recurrence. A friend of mine also had eczema and tried overything for it but never found anything to remove the annoyance. On my recommendation she used Doan's Ointment, and was abso-

lutely cured." Foraale by all dealers. Price 50 cents a box Poster-Milhurn Co., Buffalo, N. Y., cole agente for the United States.
